Your Preferred Partner

About Us & Our Values

WHO WE ARE

An indigenous energy service provider and a P100 company with over 18 years of hands-on experience, delivering end-to-end solutions from procurement to smart energy systems

OUR MISSION & VISION

To be the top-choice local content company in the energy industry. We deliver quality, safety, innovation, and value—always with integrity and a commitment to excellence

CORE VALUES

- Teamwork
- Innovation
- Absolute Commitment to Safety
- Integrity
- Excellence

WHAT WE DO

We provide services in the areas of

- AI-Based Predictive Monitoring for the Process Industry
- Decarbonization & Clean Energy from waste gas pressure
- Oilfield Equipment Procurement
- Field Instrumentation Protection
- Engineering Consulting
- Pipeline Installation
- Technical Manpower Supply

We provide Innovative and cost-effective solutions that greatly improve productivity and performance of our customers while maintaining the highest levels of safety, quality and professionalism.

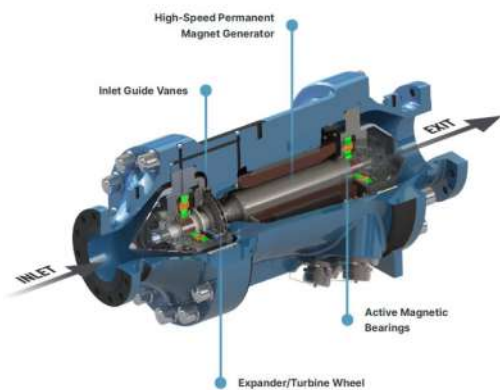

Our vast experience of over 18 years, strategic relationships with foreign technical partners and industry experts, good understanding of the complexity and challenges facing the Industry uniquely stand us out as the reference point in local content development.

The company is a registered vendor with major E & P companies like Chevron, Exxonmobil, Shell, Seplat, NLNG, Total and Nigerian Agip Oil Company (NAOC), as well as marginal field operators.

AI-Based Predictive Monitoring

Developed in Germany, SAM GUARD is an advanced AI-powered predictive and diagnostic tool designed to benefit the process Industry. Its key advantages include:

- Improved operational efficiency
- Increased plant reliability
- Maximized production
- Predictive monitoring
- Significant reduction in downtime

Clean Energy Solution

In partnership with Sapphire Technologies (California), we deploy FreeSpin™ inline turboexpanders for gas-to-power solutions—turning gas pressure into electricity while reducing carbon footprint

Field Instrument & Equipment Protection

In partnership with Germany's INTERTEC-Hess GmbH, we offer top-tier GRP enclosures, shelters, and cabinets to shield critical instruments in harsh environments. These products include:

- Enclosures
- Shades/Canopies
- Cabinets
- Fire Shelters
- Passive cooled Shelters
- Hybrid Shelters
- Active cooled Shelters
- Peri Shelters
- Safety Shower Cabinets
- Hot boxes
- ATEX Air-conditioning
- Explosion Proof Heaters
- Turn-Key Solution

Oilfield Equipment Supply

- Leverage strategic ties with OEMs, buying houses and technical partners for competitive pricing, fast delivery, and solid aftersales support.
- Valves (Ball, Gate, Butterfly, Globe etc)
- Subsea Valves, High Pressure Valves & Cryogenic valves
- Valve Actuators and Positioners, Carbon Steel Line Pipes & OCTG
- Pipe fittings & Flanges, GRE Pipes and other Special Pipes
- Firefighting & Safety Equipment
- Filters (O-ring, Leaf-filter, Cricket filter etc)
- Gauges (Pressure, Level, Depth, Ring, plug etc)
- Instrumentation & Control Systems (DCS, PLCs, Meters etc)
- Electrical Items (Generators, Electrical Cables, Transformers etc)
- Gas Detectors and Flame Detectors
- Pressure Sensors / Transmitters / Transducers
- Hoses, Gaskets, Static & Rotating Equipment (Pumps, Compressors, Pressure Vessels, Knockout drums etc)

Engineering Design & Consultancy

From feasibility and FEED to detailed design and safety audits, our consultancy ensures quality, reliability and regulatory compliance. Our Engineering & Consultancy services include:

- Conceptual/Feasibility Studies
- Front End Engineering Design (FEED)/Basic Engineering
- Detailed Engineering
- Design & Safety Reviews (HAZOP, HAZID, etc.)
- Facility audits, safety audits etc.
- Project Management
- Installation and maintenance of valves, positioners and actuators
- Training on Engineering design software

Technical Manpower Supply

We connect projects with skilled local and expatriate professionals aligned with your corporate culture and technical need

Pipeline Installation & Steel Fabrication

Executing onshore pipeline projects and steel structure fabrication at our 10,000m² Warri yard, including pipe racks, skids, topsides

OUR STRATEGIC PARTNERS

FOREIGN TECHNICAL PARTNERS

OUR CLIENTS

QHSE: At Horizon Shores, we prioritize the health, safety, and well-being of our employees, clients, contractors, and the public. Our comprehensive approach includes robust policies and practices, proactive risk management and environmental protection.

By integrating sustainability and risk analysis, we create a safe and healthy environment for everyone.

Quality Policy

To provide products and services that fully satisfy customer, industry, and regulatory requirements. To meet or exceed both internal and external customer requirements 100% of the time and continually improve the effectiveness of our quality system.

Customer focused and Performance driven.

Health and Safety Policy

To carry out activities efficiently in a manner that the health and safety of our client, employees and environment are protected always.

Looking to partner on a project, deploy clean energy tech, or access skilled manpower? Let's talk.

- Indigenous – Globally Connected
- Over 18 years of trust and delivery
- Quality. Safety. Innovation.
